- Progress plans.

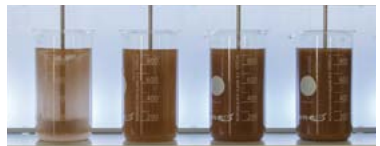

# Optimizing the management of your waste

## Our expertise is your guarantee

Séché Environnement is a French environmental services group which offers its customers made-to-measure solutions for the management of every kind of environmental challenge. Whatever the type of hazardous waste and effluents produced on your sites, we offer you the same know-how and expertise in the technologies we have deployed in our own recovery and treatment plants. For you, we bring together the competencies of all our subsidiaries to give you access to the best technologies available.

### We support you:

- Initial evaluation of the situation and associated risks
- Methods and techniques
- Deployment of our services
- Partnerships with local businesses.

- 1. Thermal treatment of hazardous waste
- 2. Physical-chemical treatment
- 3. Sorting and grouping of hazardous waste
- 4. Storage of hazardous waste

## Our commitment to progress

Outsource specific tasks to us, or have us manage all your waste products and effluents, either way, it's the fast route to improving your financial and environmental performance over the long term, as you implement our recommendations regarding organization, put objectives in place, and optimize your reporting processes.

- 1. Solvent regeneration
- 2. Pretreatment

1, 2, 3. Processing industrial effluents and sludges
